PRAKTIKUM 211-BASIS DATA 7 - C

PERTEMUAN 2

1. Modifikasi Field

A. ADD

```
1 ALTER TABLE lokasi ADD alamat VARCHAR(225) NOT NULL AFTER nama_lokasi;
```

| # | Name | Datatype | Length/Set | Unsign... | Allow N... | Zerofill | Default | Comment | Collation |
|---|-------------|----------|------------|--------------------------|--------------------------|--------------------------|-----------------|---------|-------------------|
| 1 | id | INT | 11 | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | AUTO_INCREME... | | |
| 2 | nama_lokasi | VARCHAR | 255 | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | No default | | latin1_swedish_ci |
| 3 | alamat | VARCHAR | 225 | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | No default | | latin1_swedish_ci |

B. CHANGE

```
1 ALTER TABLE lokasi CHANGE alamat alamat_gedung TEXT NOT NULL;
```

| # | Name | Datatype | Length/Set | Unsign... | Allow N... | Zerofill | Default | Comment | Collation |
|---|---------------|----------|------------|--------------------------|--------------------------|--------------------------|-----------------|---------|-------------------|
| 1 | id | INT | 11 | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | AUTO_INCREME... | | |
| 2 | nama_lokasi | VARCHAR | 255 | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | No default | | latin1_swedish_ci |
| 3 | alamat_gedung | TEXT | | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | No default | | latin1_swedish_ci |

C. DROP

```
1 ALTER TABLE lokasi DROP alamat_gedung;
```

| # | Name | Datatype | Length/Set | Unsign... | Allow N... | Zerofill | Default | Comment | Collation |
|---|-------------|----------|------------|--------------------------|--------------------------|--------------------------|-----------------|---------|-------------------|
| 1 | id | INT | 11 | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | AUTO_INCREME... | | |
| 2 | nama_lokasi | VARCHAR | 255 | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | No default | | latin1_swedish_ci |

D. Select & Where

```
1 SELECT * FROM lokasi WHERE id = 2;
```

| lokasi (1r x 2c) | |
|------------------|-----------------|
| id | nama_lokasi |
| 2 | Kota Banjarbaru |

E. Wildcard & Like

```
1 SELECT * FROM lokasi WHERE nama_lokasi LIKE '%kota%';
```

| lokasi (2r × 2c) | |
|------------------|------------------|
| id | nama_lokasi |
| 1 | Kota Banjarmasin |
| 2 | Kota Banjarbaru |

F. Latihan 2.1

```
1 SELECT * FROM jabatan WHERE nama_jabatan LIKE '%programmer%';
```

| jabatan (2r × 5c) | | | | |
|-------------------|-------------------|---------------|-------------------|--------------------|
| id | nama_jabatan | gapok_jabatan | tunjangan_jabatan | uang_makan_perhari |
| 3 | Senior Programmer | 2,200,000 | 400,000 | 36,000 |
| 4 | Junior Programmer | 2,100,000 | 350,000 | 34,000 |

2. Numeric

```
1 SELECT * FROM jabatan;
```

| jabatan (5r × 5c) | | | | |
|-------------------|-------------------|---------------|-------------------|--------------------|
| id | nama_jabatan | gapok_jabatan | tunjangan_jabatan | uang_makan_perhari |
| 1 | System Analyst | 2,400,000 | 500,000 | 40,000 |
| 2 | Project Manager | 2,300,000 | 450,000 | 38,000 |
| 3 | Senior Programmer | 2,200,000 | 400,000 | 36,000 |
| 4 | Junior Programmer | 2,100,000 | 350,000 | 34,000 |
| 5 | Magang | 1,000,000 | 100,000 | 20,000 |

```
1 SELECT * FROM jabatan WHERE gapok_jabatan > 2200000;
```

| jabatan (2r × 5c) | | | | |
|-------------------|-----------------|---------------|-------------------|--------------------|
| id | nama_jabatan | gapok_jabatan | tunjangan_jabatan | uang_makan_perhari |
| 1 | System Analyst | 2,400,000 | 500,000 | 40,000 |
| 2 | Project Manager | 2,300,000 | 450,000 | 38,000 |

3. Latihan 2.2

```
1 SELECT * FROM jabatan WHERE uang_makan_perhari < 35000;
```

| jabatan (2r × 5c) | | | | |
|-------------------|-------------------|---------------|-------------------|--------------------|
| id | nama_jabatan | gapok_jabatan | tunjangan_jabatan | uang_makan_perhari |
| 4 | Junior Programmer | 2,100,000 | 350,000 | 34,000 |
| 5 | Magang | 1,000,000 | 100,000 | 20,000 |

4. Function

```
1 SELECT * FROM pengguna;
```

| id | username | password | peran | login_terakhir |
|----|-----------------|----------------------------------|-------|----------------|
| 1 | admin | 21232f297a57a5a743894a0e4a801fc3 | ADMIN | (NULL) |
| 2 | user | ee11cbb19052e40b07aac0ca060c23ee | USER | (NULL) |
| 3 | john doe | 6579e96f76baa00787a28653876c6127 | USER | (NULL) |
| 4 | fulan bin fulan | 7c232f58f03f6d00c8d28166fbff7a8b | USER | (NULL) |
| 5 | mawar | bd117502364227fd8c09098d31e11313 | USER | (NULL) |
| 6 | melati | 27e80ebc907bd57004986be9e6f2dd83 | USER | (NULL) |
| 7 | dahlia | ee11cbb19052e40b07aac0ca060c23ee | USER | (NULL) |
| 8 | lily | 89f288757f4d0693c99b007855fc075e | USER | (NULL) |

```
1 SELECT * FROM pengguna WHERE username = 'admin' AND PASSWORD = MD5('admin');
```

| id | username | password | peran | login_terakhir |
|----|----------|----------------------------------|-------|----------------|
| 1 | admin | 21232f297a57a5a743894a0e4a801fc3 | ADMIN | (NULL) |

```
1 SELECT id, nama_lengkap, tanggal_masuk, TIMESTAMPDIFF(YEAR, tanggal_masuk, CURDATE()) masa_kerja_tahun FROM karyawan;
```

| id | nama_lengkap | tanggal_masuk | masa_kerja_tahun |
|----|------------------|---------------|------------------|
| 1 | Admin | 2011-01-01 | 10 |
| 2 | Tes User | 2012-02-02 | 9 |
| 3 | John Doe | 2013-03-03 | 8 |

| 7 | Dahlia Setiani | 2017-07-07 | 4 |
| 8 | Lily Handayani | 2018-08-08 | 3 |

5. Select & Count

```
1 SELECT COUNT(*) kuantitas_lokasi FROM lokasi WHERE nama_lokasi LIKE '%kota%';
```

| kuantitas_lokasi |
|------------------|
| 2 |

6. Latihan 2.3

```
1 SELECT COUNT(*) kuantitas_jabatan FROM jabatan WHERE nama_jabatan LIKE '%programmer%';
```

| kuantitas_jabatan |
|-------------------|
| 2 |

Pertemuan 3

1. One To Many

```
1 SELECT *FROM bagian;
```

| id | nama_bagian | karyawan_id | lokasi_id |
|----|-------------------|-------------|-----------|
| 1 | Autentikasi | 5 | 1 |
| 2 | Data Science | 3 | 1 |
| 3 | Backend Developer | 6 | 2 |

```
1 SELECT b.*, L.nama_lokasi lokasi_bagian FROM bagian B
2 INNER JOIN lokasi L ON B.lokasi_id = L.id
```

| id | nama_bagian | karyawan_id | lokasi_id | lokasi_bagian |
|----|-------------------|-------------|-----------|------------------|
| 1 | Autentikasi | 5 | 1 | Kota Banjarmasin |
| 2 | Data Science | 3 | 1 | Kota Banjarmasin |
| 3 | Backend Developer | 6 | 2 | Kota Banjarbaru |

2. Latihan 3.1

```
1 SELECT B.*, K.nama_lengkap nama_kepala_bagian, L.nama_lokasi lokasi_bagian
2 FROM bagian B
3 INNER JOIN karyawan K ON B.karyawan_id = K.id
4 INNER JOIN lokasi L ON B.lokasi_id = L.id
```

| id | nama_bagian | karyawan_id | lokasi_id | nama_kepala_bagian | lokasi_bagian |
|----|-------------------|-------------|-----------|--------------------|------------------|
| 1 | Autentikasi | 5 | 1 | Mawar Kurniani | Kota Banjarmasin |
| 2 | Data Science | 3 | 1 | John Doe | Kota Banjarmasin |
| 3 | Backend Developer | 6 | 2 | Melati Rahmawati | Kota Banjarbaru |

3. Many To Many

```
1 SELECT * FROM jabatan_karyawan;
```

| id | jabatan_id | karyawan_id | tanggal_mulai |
|----|------------|-------------|---------------|
| 1 | 5 | 3 | 2013-03-03 |
| 2 | 4 | 3 | 2014-04-01 |
| 3 | 5 | 4 | 2014-04-04 |
| 4 | 3 | 3 | 2015-05-04 |
| 5 | 4 | 4 | 2015-05-05 |
| 6 | 5 | 5 | 2015-05-05 |
| 7 | 2 | 3 | 2015-06-01 |
| 8 | 3 | 4 | 2015-06-02 |
| 9 | 4 | 5 | 2015-06-03 |
| 10 | 5 | 6 | 2015-06-06 |
| 11 | 1 | 3 | 2017-07-01 |
| 12 | 2 | 4 | 2017-07-02 |
| 13 | 3 | 5 | 2017-07-02 |
| 14 | 4 | 6 | 2017-07-02 |
| 15 | 5 | 7 | 2017-07-07 |
| 16 | 4 | 7 | 2018-08-02 |
| 17 | 5 | 8 | 2018-08-08 |

4. Latihan 3.2

```
1 SELECT JK.*, J.nama_jabatan nama_jabatan, N.nama_lengkap nama_lengkap FROM jabatan_karyawan JK
2 INNER JOIN karyawan N ON JK.karyawan_id = N.id
3 INNER JOIN jabatan J ON JK.jabatan_id = J.id
```

| id | jabatan_id | karyawan_id | tanggal_mulai | nama_jabatan | nama_lengkap |
|----|------------|-------------|---------------|-------------------|------------------|
| 1 | 5 | 3 | 2013-03-03 | Magang | John Doe |
| 2 | 4 | 3 | 2014-04-01 | Junior Programmer | John Doe |
| 3 | 5 | 4 | 2014-04-04 | Magang | Fulan Bin Fulan |
| 4 | 3 | 3 | 2015-05-04 | Senior Programmer | John Doe |
| 5 | 4 | 4 | 2015-05-05 | Junior Programmer | Fulan Bin Fulan |
| 6 | 5 | 5 | 2015-05-05 | Magang | Mawar Kurniani |
| 7 | 2 | 3 | 2015-06-01 | Project Manager | John Doe |
| 8 | 3 | 4 | 2015-06-02 | Senior Programmer | Fulan Bin Fulan |
| 9 | 4 | 5 | 2015-06-03 | Junior Programmer | Mawar Kurniani |
| 10 | 5 | 6 | 2015-06-06 | Magang | Melati Rahmawati |
| 11 | 1 | 3 | 2017-07-01 | System Analyst | John Doe |
| 12 | 2 | 4 | 2017-07-02 | Project Manager | Fulan Bin Fulan |
| 13 | 3 | 5 | 2017-07-02 | Senior Programmer | Mawar Kurniani |

Pertemuan 4

1. Penggajian

1

SELECT *FROM penggajian

</

2. Jumlah Gaji yang dibayarkan Per Tahun

```

1  SELECT tahun,
2      SUM(P.gapok) +
3      SUM(P.tunjangan) +
4      SUM(P.uang_makan)
5      jumlah_bayar_gaji
6  FROM penggajian P
7  GROUP BY tahun;

```

| Result #1 (2r x 2c) | |
|---------------------|-------------------|
| tahun | jumlah_bayar_gaji |
| 2020 | 36,228,000 |
| 2021 | 18,050,000 |

3. Rincian Jumlah Gaji yang dibayarkan Per Tahun

```

1 SELECT tahun,
2     SUM(P.gapok) jumlah_gapok,
3     SUM(P.tunjangan) jumlah_tunjangan,
4     SUM(P.uang_makan) jumlah_uang_makan
5 FROM penggajian P
6 GROUP BY tahun;

```

 penggajian (2r x 4c)

| tahun | jumlah_gapok | jumlah_tunjangan | jumlah_uang_makan |
|-------|--------------|------------------|-------------------|
| 2020 | 24,200,000 | 4,300,000 | 7,728,000 |
| 2021 | 12,100,000 | 2,150,000 | 3,800,000 |

4. Rincian Jumlah Gaji yang dibayarkan Per Bulan

```

1 SELECT tahun, bulan,
2     SUM(P.gapok) jumlah_gapok,
3     SUM(P.tunjangan) jumlah_tunjangan,
4     SUM(P.uang_makan) jumlah_uang_makan
5 FROM penggajian P
6 GROUP BY tahun, bulan;

```

 penggajian (3r x 5c)

| tahun | bulan | jumlah_gapok | jumlah_tunjangan | jumlah_uang_makan |
|-------|-------|--------------|------------------|-------------------|
| 2020 | 11 | 12,100,000 | 2,150,000 | 3,800,000 |
| 2020 | 12 | 12,100,000 | 2,150,000 | 3,928,000 |
| 2021 | 01 | 12,100,000 | 2,150,000 | 3,800,000 |

5. Rincian Jumlah Gaji yang dibayarkan Per Karyawan dalam 1 tahun

```

1 SELECT P.tahun,
2     P.karyawan_id,
3     K.nama_lengkap,
4     SUM(P.gapok) jumlah_gapok,
5     SUM(P.tunjangan) jumlah_tunjangan,
6     SUM(P.uang_makan) jumlah_uang_makan
7 FROM penggajian P
8 LEFT JOIN karyawan K ON P.karyawan_id = K.id
9 WHERE P.tahun = "2020"
10 GROUP BY P.karyawan_id

```

 penggajian (6r x 6c)

| tahun | karyawan_id | nama_lengkap | jumlah_gapok | jumlah_tunjangan | jumlah_uang_makan |
|-------|-------------|------------------|--------------|------------------|-------------------|
| 2020 | 3 | John Doe | 4,800,000 | 1,000,000 | 1,600,000 |
| 2020 | 4 | Fulan Bin Fulan | 4,600,000 | 900,000 | 1,406,000 |
| 2020 | 5 | Mawar Kurniani | 4,400,000 | 800,000 | 1,404,000 |
| 2020 | 6 | Melati Rahmawati | 4,200,000 | 700,000 | 1,320,000 |
| 2020 | 7 | Dahlia Setiani | 4,200,000 | 700,000 | 1,258,000 |
| 2020 | 8 | Lily Handayani | 2,000,000 | 200,000 | 740,000 |

6. Rincian Bulanan Jumlah Gaji yang dibayarkan 1 karyawan dalam 1 tahun

```

1 SELECT P.tahun, P.bulan,
2       P.karyawan_id,
3       K.nama_lengkap,
4       P.gapok,
5       P.tunjangan,
6       P.uang_makan
7 FROM penggajian P
8 LEFT JOIN karyawan K ON P.karyawan_id = K.id
9 WHERE P.tahun = "2020" AND karyawan_id = 3
